GETTING STARTED

WARNING: NEVER TRY TO INSERT OR REMOVE A GAME PAK WHEN THE POWER IS ON!

- Turn the power **OFF** on your N64™.
- Insert the Game Pak into the slot on the N64™. Press firmly to lock the Game Pak in place.
- Turn the power switch **ON**. After the appearance of the title and legal screens, you may bypass at any time by pressing **START**.

DELETE CONTROLLER PAK MENU

Press and hold the **START Button** upon powering up or a reset to access the Delete Controller Pak Menu. This will allow you to view and delete saved information off a N64 memory pak.

CONTROL STICK FUNCTION

The Nintendo 64 Control Stick uses an analog system to read the angles and directions of its movement. This allows precision control that is not possible using the conventional Control Pad.

When turning the Control Deck power **ON**, do not move the **Control Stick** from its neutral position on the controller.

If the **Control Stick** is held at an angled position (as shown in the picture on the left) when the power is turned **ON**, this position will be set as neutral. This will cause games using the **Control Stick** to operate incorrectly.

To reset the neutral position once the game has started, let go of the **Control Stick** so it can return to its center position (as shown in the picture on the left) then press **START** while holding down the **L** and **R Buttons**.

The **Control Stick** is a precision instrument, make sure not to spill liquids or place any foreign objects into it. If you need assistance, contact Nintendo Consumer Assistance at 1-800-255-3700 or your nearest Nintendo Authorized Repair Center.

CONTROLS

Robotron 64 lets you play using both Controller Sticks to move and shoot (see **Configure Controls**, pg. 7). The diagrams below demonstrate default button configuration for Controllers 1 and 3.

DEFAULT CONTROLS

TWO FISTED STANDARD
(USING CONTROLLERS 1 & 2
TOGETHER OR 3 & 4 TOGETHER).

WALK IN ALL DIRECTIONS

FIRE IN ALL DIRECTIONS

NOTE: When using the Two Fisted configuration, all other default controls (besides Walk and Fire) remain the same.

CONTROLS

AIM & FIRE

NOTE: To aim or fire diagonally, press two adjacent buttons simultaneously.

PLAYER 1 SINGLE CONTROLLER

PLAYER 1 TWO FISTED CONTROLS

PLAYER 2 SINGLE CONTROLLER

PLAYER 2 TWO FISTED CONTROLS

NOTE: If no controller is plugged into Controller Socket 3, Player 2 uses Controller 1.

MENU SELECTIONS

- Press **Up** or **Down** on the **Control Pad** to highlight menu items.
- Press **Left** or **Right** on the **Control Pad** to cycle options.
- Press the **A Button** to select an option.
- Press the **B Button** to go back to the previous menu.

MAIN MENU

ONE PLAYER

Select this option to play a 1 Player game.

TWO PLAYERS

When you select this option, you and a friend will take alternate turns playing. Each time a player dies in the arena, the other player takes a turn. If one player runs out of

Lives, the other player will continue to play as long as he has **Lives** remaining. Both players' games are separate from one another.

LOAD GAME

If you've previously played a game and saved it to your Controller Pak, you can load that file and continue the game (see **Load Game**, pg. 8).

SETUP

Select this option to go to the Setup Screen, and select from the various game play options (see **Setup**, below).

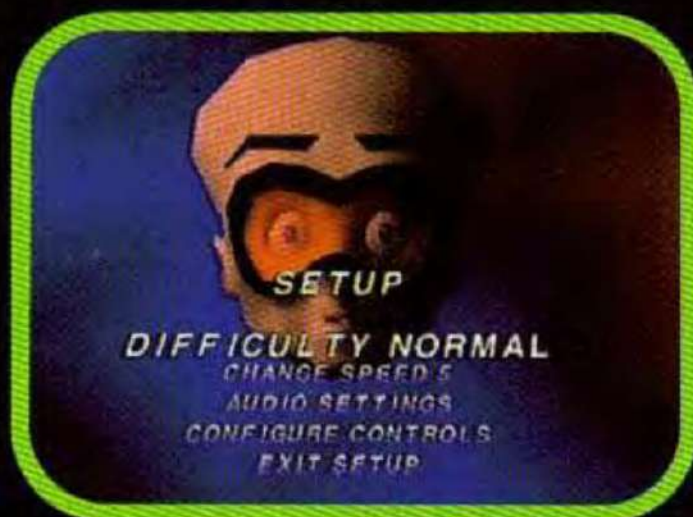

SET-UP

DIFFICULTY

Robotron64 has three difficulty levels. Press the **Control Pad Left** or **Right** to select **Easy**, **Normal** (default), or **Insane**.

CHANGE SPEED

Press the **Control Pad Left** or **Right** to speed up or slow down the speed of everything. Yes, everything, including Eugene.

SET-UP

AUDIO SETTINGS

Make changes to the game's default audio settings. Press the **Control Pad Left** or **Right** to cycle the settings or sounds of these options:

MUSIC VOLUME

Adjust the game's music volume. The default is 8.

SOUND FX VOLUME

You can also adjust the game's FX (Sound Effects) volume. The default is 6.

PLAY MUSIC TRACK

Select one of the 11 music cuts available in the game. The music will change as you cycle through them.

CONFIGURE CONTROLS

Robotron 64 allows you to choose how you want to use the Control Stick: to Walk or Fire weapons. You can make changes to the Player 1 or Player 2 configuration. Highlight the appropriate Controller option, then press the **Control Pad Left** or **Right** to cycle the settings. Experiment with different settings. When you've made the changes you want, select **Use Setup**. Select **Cancel** to exit without making changes.

LOAD GAME

Robotron 64 has two methods available to continue previously played games: enter a **Password** or **Load** a game from your Controller Pak. Read below for information on both methods.

PASSWORDS

New passwords appear on the Pause Menu Screen each time you add 1,000 points to your score. Write it down, then you can enter it when you select **Enter Password** from the Load Game Screen.

To enter a password, select **Enter Password**, then press the **Control Pad Left** or **Right** to select a letter, then press any **C Button** to select it. Enter all 10 characters in the password. The game will automatically load if the password is correct. If you enter an incorrect password, you will be prompted and return to the Load Game Screen. If this happens, select **Enter Password** again, then re-enter the correct password.

LOAD GAME

With a Controller Pak inserted in Controller Port 1 only, you can save played game files, then re-enter them later to continue a game. When you select this option, the Load Game Screen is displayed. As many as eight files may be saved and stored.

Highlight and select the game you want to restore. You'll then return to that game. A slot marked "**Unused**" has no saved game.

VIEW CONTROLLER PAK

Select this option to view and delete any saved files. If you want to delete a file, select it, then select **Delete** when prompted.

PAUSE OPTIONS

Anytime during gameplay, press the **START Button** to view the Game Paused Screen. Select Continue to return to the game. You can also **Save** or **Quit** a game in progress.

To save a game using a Controller Pak in Controller Port 1, select **Save**, then highlight the slot you want to save the game to. You can select a used or unused slot. Press the **A Button** to save your game. The level and number of players will be indicated. Select **Exit** to return to the Game Paused Screen.

To make changes to your current game, select **Options** from the Game Paused Screen. The options available are **Change Speed**, **Music Volume** and **Sound FX Volume**.

For more information on these options, see **Setup**, pgs. 6 and 7.

ROBOTRON: THE STORY

In 2084, inspired by his never ending quest for progress, man perfects The Robotrons, a robot species so advanced that man is inferior to his own creation. Guided by their infallible logic, The Robotrons conclude the human race is inefficient and therefore, must be destroyed.

You are the last hope of mankind. Due to a genetic engineering error you possess superhuman powers. Your mission is to stop The Robotrons and save the last human family.

THE ARENA

As you fight to save humanity, your **Score** and the amount of **Lives** remaining are displayed in the upper portion of the screen. Stay in the clear and gun 'em down.

The object of the game is to clear each arena of the deadly robots as you rescue as many members of the human family as possible. Simply make contact with the humans to rescue them, and collect valuable points.

LEVEL GATE

Level Gates are created when a magical grunt is destroyed. If entered, a Level Gate will randomly warp the player forward through levels.

ELECTRODES

There are many different types of electrodes ranging from simple objects to electrodes with particular game play features. They are:

ELECTRODE 1
Basic Electrode

ELECTRODE 2
Basic Electrode

ELECTRODE 3
Basic Electrode

ELECTRODE 4
Giant Electrode, found in the Electrode Forest.

ELECTRODE 5
Basic Electrode

ELECTRODES

ELECTRODE 6
Basic Electrode

ELECTRODE 7
This electrode cannot be destroyed, but will destroy Eugene.

DEFLECTOR
These electrodes can be used to amplify and spread your weapon against the evil robotron hordes.

TRANSFORMER
These electrodes are used in the Beam Maze.

MINE
A useful tool in the quest to eradicate the human race. One wrong step and you're toast.

POWER UPS

Robotron 64 has several different types of Power Ups that will help you boost your firepower and defeat your enemies. They are:

SHIELD

The shield produces laser rings that absorb enemy weapon fire and multiple direct enemy impacts.

TWO WAY

This weapon fires forward and behind Eugene and is great for thinning a crowd.

THREE WAY

For people who appreciate the direct approach, this weapon fires 3 shots forward providing maximum spread.

FOUR WAY

This 3 way weapon produces mines that can be used to lay mine fields with deadly efficiency.

POWER UPS

GAS GUN

Emits a giant cloud of toxic gas, destroying everything that comes in contact with it.

1 UP

This shining beacon of hope amidst the robot terror may be your last chance for survival.

SPEED UP

Speed ups can be collected multiple times allowing a burst of speed when things get insane.

FLAME THROWER POWER UP

The flame thrower is an extremely destructive weapon at close range, reducing everything it touches to charred rubble.

THE ENEMIES

Take a look at the following profiles to size up your enemies. This is important information to know prior to the battle. The name of each enemy is displayed, along with the amount of points you receive for destroying them. Here they are:

GRUNT

These Ground Roving Unit Network Terminator grunts are the force of the arena. They're programmed to seek and destroy you. They are a 3D version of Original Robotron Grunt character. Score: 100

GRUNT 2
